Learning To…

Capo 2nd fret © 2011 Lions Bay School & Lowry Olafson

```
                                  G
Chorus:      We're learning to love,
                                  Am7
             We're learning to care,
                                C
             And every day,
                                  D7
             We're learning to share,
                                  C
             We're learning to laugh
                                G
             Open our hearts,
                                D
             At Lions Bay School,
                                  G
             We can all do our part.
                    C
It's a treasure in the rainforest,
                      G
With magic all around,
                     A
Nestled on the mountainside
C                          D
With a creek flowing down.

Chorus
G                                C
_ It's a place where we respect each other,
C                              G
_ Where all of us feel safe,
                                      A7
'Cause we know when kids are fair and honest,
C
_ It makes our school a kinder place.

Chorus
