No More Teachers

No capo © 2011 Central Elementary School & Lowry Olafson

```
                    A
Chorus:     There's no more teachers,

            They're taking a nap
            G                E
            No more teachers, no more teachers
                  A
            There's no more teachers,
              A
            We like it like that!
            G                       E
            We're gonna have some fun
                                A
            'Til the school bus comes.

          D
They were writing our report cards
      A
And it put them all to sleep,
        D
So there won't be any classes,
      E                E7
'Cause there's no one to teach!
```

Chorus

We can skateboard in the hallways
Go home and get our pets,
Order a hundred pizzas
Start dancing on our desks!

Chorus

We'll write our own report cards,
So nobody can fail,
Run outside and start a food fight,
Put the school up for sale!

(Price includes 18 teachers!)

Chorus
