

## Dream High

No capo

© 2009 Sumas First Nation & Lowry Olafson

Chorus:           C  
                  Dream high  
                          G  
                  Above the mountains  
                          C  
                  The sky is not so far  
                          F  
                  When you're reaching for the stars  
                          C  
                  You discover who you are,  
                          G           C  
                  So dream high, dream high.

C  
I've known you for a long time  
                  G  
And I believe in you.

I've watched you through the years  
                  C       C7  
I know you're strong and true.  
F  
Strong enough to grow,  
C  
Brave enough to cry,  
                  G  
So let your feelings show  
                  C  
Go on and give it a try.

Chorus

Fear is nothing but a word,  
Just be who you are,  
When you're looking deep within,  
You find strength in your heart.  
Life is like a treasure  
A gift for you and me  
We can help each other see  
And set our spirits free.

Chorus
